The Buzz about Bees and Climate Change: Why You Should Care

Wednesday, April 8 • 6:30pm - 7:30pm

Grant R. Brimhall Library
Marvin E. Smith Community Room

People are often unaware of how important bees are in their everyday lives. It is estimated that 75% of global crops benefit from insect pollination. The more than 30,000 bee species around the world are the most important group of pollinators for farming and wild plants. But the world's honeybees are in steep decline. While scientists aren't clear on exactly what factors are behind the decline, what is known is that climate change and shifting temperatures are having a negative impact on the life of bees.

A panel discussion will explore the effect of climate change on the bee populations, and how the public can help sustain them. Panelists include Sharon Markenson of The Climate Reality Project, Dr. Ruben Alarcón, Assistant Professor of Biology, California State University, Channel Islands.

Film: Honeyland

An Afternoon with Meredith May

Author of *The Honey Bus*

Sunday, April 26 • 2:00pm - 4:00pm

Bank of America Performing Arts Center
Thousand Oaks – Fred Kavli Theatre

“So work the honeybees, creatures that by a rule in nature teach the art of order to a peopled kingdom.” —William Shakespeare, Henry V

The 2020 Thousand Oaks Reads: One City One Book is *The Honey Bus: A Memoir of Loss, Courage and a Girl Saved by Bees* by Meredith May. Ms. May's inspiration for her memoir came from the time she was living with her grandfather, a beekeeper.

Meredith May recalls the first time a honeybee crawled on her arm. She was five years old, her parents had recently split, her mother was dealing with depression, and suddenly she found herself in the care of her grandfather, an eccentric beekeeper who made honey in a rusty old military bus in the yard. That first close encounter was at once terrifying and exhilarating for May, and in that moment she discovered that everything she needed to know about life and family was right before her eyes, in the secret world of bees.

Tickets are required for this event and are available at both the Newbury Park and Grant R. Brimhall Libraries beginning March 15, 2020. Members of the Friends of the Library will be given priority admission 30 minutes before the event. Membership details can be obtained at the Information Desks.

PROGRAMS & EVENTS

The Honey Bus: A Memoir of Loss, Courage and a Girl Saved by Bees by Meredith May

Part memoir, part beekeeping odyssey, *The Honey Bus* is an unforgettable story about finding home in the most unusual of places, and how a tiny, little-understood insect could save a life. In the care of her grandfather, an eccentric beekeeper who made honey in a rusty old military bus in the yard, she discovered the secret world of bees, teaching her about family and community, loyalty and survival. She forged an unbreakable bond with her grandfather and opened her eyes to the magic and wisdom of nature. A profound story that highlights how our relationships shape our lives, and the importance of our relationship with nature.
